WINTER

Things to do before comming Casa Suaya:

- *Winter in José Ignacio is the best time to enjoy moments of peace and tranquility. It is the ideal time for walking along the beach, reading a book, getting in touch with nature ... The landscapes are spectacular and the experience unique! Please note that during this time almost all places will be closed. But you can visit Punta del Este or have lunch at La Huella during weekends*

- *Although winter is not as chaotic as the summer, we recommend you do your homework before you come and Google it! You will see that José Ignacio is a small town surrounded by houses that are inhabited only 15 days per year during the high season! The rest of the year is a quiet village with no more than 200 residents ...*
